EDUCATION

University of Phoenix Bachelor of Science Management	(December 2017 - December 2019)
---------------------------------------------------------	---------------------------------

Oakland Community College Associate's Degree Criminal Justice	(December 2008 - December 2015)
------------------------------------------------------------------	---------------------------------

Oakland Community College Associate's Degree General Studies	(December 2008 - December 2015)
-----------------------------------------------------------------	---------------------------------

OBJECTIVE

IT Professional with 7 years of Enterprise desktop support and network administration experience. Investigative and always growing expertise in automation, networking, security, software development, and technology leadership.

WORK EXPERIENCE

Oakland Schools Technology Coordinator	(July 2020 - Present)
--------------------------------------------------	-----------------------

- Supervises team of four technicians that provide on-site support to the counties career focused campuses
- Co-Supervises a Service Desk which provides Enterprise level support to all 28 school districts in Oakland County and the state-wide MIServiceDesk initiative
- Works to improve processes and ensure that our teams have the tools they need to provide world-class customer service by meeting Service Level Agreements
- Key point of contact for assisting in the planning and development of the STEMi project as well as meeting equipment upgrade and refresh deadlines for our Career Focused Education Department
- Leads the planning and execution of long-term projects that will guarantee the success of our Service Desk for the foreseeable future
- Required to maintain interdepartmental communication while executing projects with external vendors

Oakland Schools Network Administrator	(May 2019 - July 2020)
-------------------------------------------------	------------------------

- Manages network operations for two school districts and provides backup support for three others
- Assists in the design and implementation of new network equipment and topology
- Maintains network accounts assigned to two school districts
- Created web application utilizing Node.js, JavaScript, HTML, and CSS to allow for quick renaming and rebooting of Cisco Meraki Networking Equipment, saving time for other district network administrators
- Created a web dashboard with React.js to allow for our department to see which Network Administrator is currently available to allow for better support
- Understands management of both Extreme Networks and Cisco Meraki networking equipment
- Simplifies complex and tedious tasks through bash, JavaScript, PowerShell, and Python scripting/programming

Oakland Schools Senior Technical Support Specialist	(July 2016 - April 2019)
---------------------------------------------------------------	--------------------------

- Member of the Symantec ITMS support team, which maintains and creates processes for system and software management as well as OS deployment
- Primary VMware Workspace ONE MDM Administrator for Oakland Schools
- Began streamlining Raspberry pi deployment and support process for room displays at Oakland Schools and dashboards for metrics
- Developed a web application using C# and ASP.net to assist the Network Operations Center with providing on-demand exports of Google email distribution groups that customers can perform themselves, alleviating a portion of the workload from their team
- Developed a C# application that clones group memberships between users using PowerShell, saving time for Service Desk staff that had to previously add each membership by hand
- Maintains user and extension changes in MITEL phone system
- Created scripts to make the Windows 10 imaging process easier until we moved to Symantec ITMS
- Created and maintained group policies for Windows devices
- Implemented and lead weekly sync-up meetings to improve processes

Oakland Schools Technical Support Specialist	(September 2014 - June 2016)
--------------------------------------------------------	------------------------------

- Assisted with the setup of two CentOS servers for use with AirWatch under the guidance of a Senior Network Administrator
- Implemented a successful onboarding of Novi’s 700 device iPad deployment into Oakland Schools' AirWatch environment
- Assisted with the setup and planning of Holly Area School’s iPad deployment utilizing a JAMF MDM solution
- Created a free and functional knowledge base using Trello that allowed for new and experienced staff to easily and quickly find solutions for customer issues. This solution was recognized at the MAEDS conference in 2015

Oakland Schools Technical Assistant	(September 2013 - September 2014)
-----------------------------------------------	-----------------------------------

- Implemented Meraki Systems Manager for remote iOS device support which allowed our team to provide more efficient customer service
- Completed the build of a Clonezilla Imaging Server which allowed for several weeks’ worth of by-hand imaging to be completed in a few days
- Utilized PDQ Deploy for automated remote software deployments

GameStop Assistant Store Manager	(January 2007 - January 2014)
--------------------------------------------	-------------------------------

- Created and modified weekly staff schedules to allow for proper coverage during peak store hours
- Conducted interviews to hire new staff members
- Generated daily sales reports to provide to the district and regional managers
- Inventory and asset tracking
- Implemented new company procedures and initiatives
- Handled large cash deposits
- Supervised the work of 4 - 6 staff members ensuring that sales goals were met, customer needs were being satisfied, and store policies and procedures were being followed properly
